

Social Media Android Application

Mobile Computing Project

CR4.S1A

Draghici Andreea-Maria

Ciontu Claudia-Elena

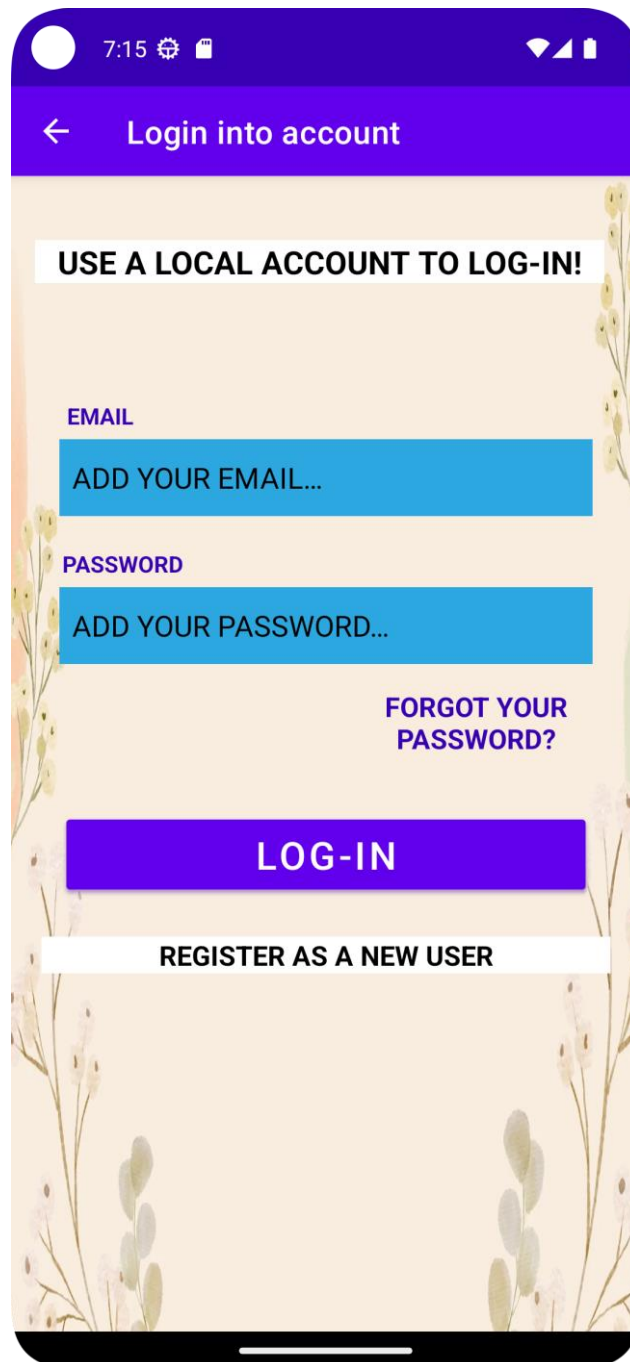

Aplicatia este dezvoltata folosind limbajul de programare Java si mediul de dezvoltare Android Studio. Pentru partea de autentificare si baza de date am utilizat Firebase Cloud pentru hostarea serviciilor.

Aplicatia are trei activitati, Register, Login si Main Dashboard.

Main Page:

Pagina de Login:

A mobile application login screen with a purple header bar. The header contains a back arrow, the text "Login into account", and a status bar at the top showing the time 7:15 and various icons. The main content area has a light beige background with a subtle floral pattern on the right side. It features a white box with the text "USE A LOCAL ACCOUNT TO LOG-IN!". Below this are two input fields: "EMAIL" and "PASSWORD", each with a blue placeholder text "ADD YOUR EMAIL..." and "ADD YOUR PASSWORD..." respectively. To the right of the password field is a link "FORGOT YOUR PASSWORD?". At the bottom, there is a large purple "LOG-IN" button and a white button with the text "REGISTER AS A NEW USER".
